GENTILI COLLEGGHI,
Questo congresso congiunto ci permette di dare un respiro internazionale al nostro evento e sarà occasione di confronto con esperti mondiali. Il programma, vario ed articolato, rappresenterà un'opportunità di confronto scientifico e di stimolo culturale per tutti i partecipanti.
Le tematiche congressuali, individuate dal Comitato Scientifico del Congresso e dai Direttivi delle Società, interesseranno tutti i settori della chirurgia dermatologica: dalle tecniche chirurgiche di base a quelle più avanzate, senza tralasciare i più recenti progressi nel campo della diagnostica e della terapia delle principali patologie dermatologiche. Un importante spazio sarà riservato, come ormai consuetudine, agli specializzandi e ai partecipanti al Master di II livello in Dermatochirurgia.
I lavori si apriranno giovedì 7 Giugno 2018 con l’inaugurazione ufficiale del Congresso e la lettura magistrale introduttiva e si chiuderanno sabato 9 Giugno 2018 con la consegna dei premi.
Arrivederci a Roma.
Prof. Michele Fimiani // Il Presidente SIDCO

DEAR COLLEAGUES,
I am pleased to invite you to participate at the 33rd SIDCO National Congress of the Italian Society of Dermatologic Surgery and Oncology) which will be held in Rome at the Pontifical University S. Thomas Aquinas from 7th to 9th June 2018.
This year the SIDCO congress is organized in joint with the 39th ISDS Annual Meeting of the International Society for Dermatological and Aesthetic Surgery.
This joint congress allows us to offer to all participants an international approach with worldwide renowned experts. The structured and rich scientific program, will represent an opportunity to increase awareness and interest in sharing different cultural and scientific experiences.
The congress themes, carefully chosen by the Scientific Committees will deepen all the fields of dermatological surgery: from basic surgical techniques to the most advanced ones, without neglecting the most recent highlights and progresses made in the diagnostics and therapy of the main dermatological pathologies.
A significant part of the program will be reserved, as is now customary, to the residents, students and trainers of the II level Master in Dermatosurgery. The works will open on Thursday June 7th 2018 with the official inauguration and Lectio Magistralis and will close on Saturday 9th June 2018 with the awards ceremony.
See you in Rome.
Prof, Michele Fimiani // SIDCO & Congress President

DEAR COLLEAGUES,
Along with our Italian colleagues, I would like to welcome all of my ISDS members, colleagues, and people who plan to attend our world congress in Rome.
The program this year will be a world-class program on all aspects of both aesthetic and reconstructive dermatology, including the greatest advanced in anatomy, pathogenesis of aging, cosmeceuticals, technologies, and new generation volumizing filling agents.
It will feature speakers from over 30 countries and promises to be an exciting and leading program.
Sincerely,
Neil Sadick // ISDS & Congress President
